

# CASE STUDY

## About Intellitech

Intellitech Electronic Solutions, founded in 1999, is a leading manufacturer and supplier of inverters to all global brands. Along with that, Intellitech Electronics collaborates with multiple PSUs for maintenance and storing their CCTV footage. In addition, they have created their own portal for the end customers to view CCTV footage for up to 90 days old in case of any theft/emergency.

## Business Challenge

Intellitech Electronic has been facing the following challenges:

- Storage of massive data in multiple TBs (Terabytes) with immediate availability of infrastructure to cater for the same
- On-demand availability CCTV footages as and when required
- Cost performance

# CASE STUDY

## **Transformation with NxtGen Solution**

With India's one to the highest deployed SSDs infrastructure in NxtGen's HDDC at Bangalore, NxtGen offered high-quality all-flash SSD storage in active mode, which is available to access immediately and catered timely deployment of massive SSD storage as per the requirement.

Also, with the highest value proposition in price-performance, NxtGen was able to cater both: increase in efficiency and a reduction in cost, which generated higher profit for the client.

## **Business Outcomes**

Intellitech has more than 250 TB SSD storage hosted at NxtGen Premise, which is very high performing, price-efficient and available on demand. With the COVID restrictions getting lowered each day, around 500 TB SSD storage is expected to be deployed shortly for this project.

## **Testimonial**

**NxtGen helped us with the quality and security of storage solutions that are critical for our business. Timely fetching data is equally important for us, which was achieved with high-quality SSD offered by NxtGen at archival cost.**
